

world around us. They help us to see, smell, hear, taste and feel. These body parts are called the **five senses***.

eyes

Our eyes help us see things around us.
Look at the wall. What colour is it?

Our nose helps us smell.
Take a deep breath*. What do you smell?

ears

Our ears help us hear sounds.
Clap your hands. Is the sound loud or soft?

Our tongue helps us taste.
What is your favourite* dish? Does it taste sweet or sour?

skin

Our skin helps us feel. We have skin all over our body.
Touch your table. Is it smooth or rough?

These five senses are important for us. We should take care of them.

AMAZING FACT

The skin on our eyelids

What it means

senses: the ability to see, hear, smell, taste and feel

breath: the air we take into and blow out through our nose and mouth

favourite: the thing or a person that you like the most

EVS-1
