

## Chapter 1

# Plant Life

## Learning objectives

In this chapter, the students will learn about:

- reproduction and how plants reproduce through different parts of a plant, such as roots, stems, leaves and seeds.
- structure and germination of a seed.
- seed dispersal and its methods.
- crops and agricultural practices.

Let's Watch

Let's Listen

## Warm Up

Tanu labelled the parts of a plant incorrectly. Help her to label them correctly.
