What happens when a crow throws away its food and an ant has a smart idea to share it instead? Let's read and find about it in this fun jungle adventure!

One day, a crow **pecks** at a piece of bread under the shade of a big oak tree. It ^{throws} **tosses** ^{small piece of bread} **crumbs** to the ground carelessly. An ant watches in surprise from a distance.

"Hey, crow! Why are you throwing away food?" the ant calls out.

The crow **flaps** its wings. "Ugh, I'm tired of eating the same thing every day!"

"Food is very important. Some animals in the jungle cannot even find a single crumb!" says the ant loudly.
