CLASS TEST

CLASS 10

SET [illegible]

Q: 5 The diagram below shows that the path of the ray of light in another medium R, after passing through medium Q, is parallel to the path of the ray in medium P.

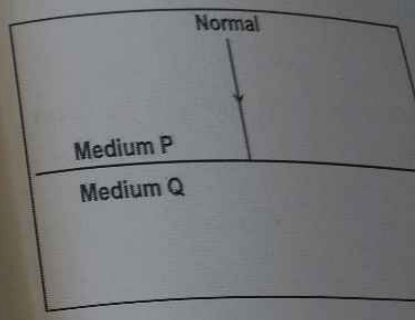

hich of the following is true about the refractive index of medium R as compared to at of medium P?

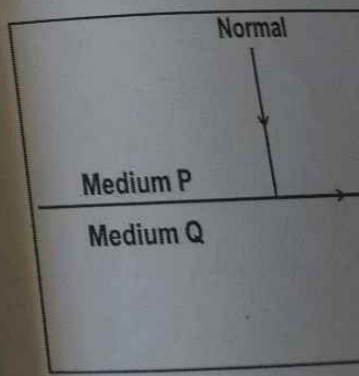

It is lower.
It is higher.
It is the same.
Cannot say as the light ray is not passing directly from medium P to R.)

Science

Q: 6 A ray of light from medium P is incider below.

Which of the following show

1

Normal
