Section-A(Reading) [4 Marks]*

Q1. Read the unseen passage and answer the questions that follow:

[4]

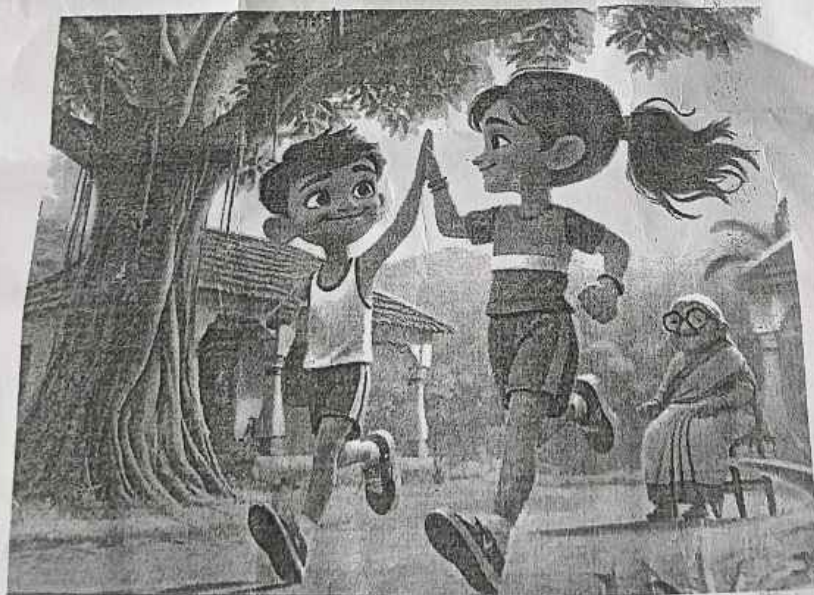

The honeybee is a very hard-working insect. It lives in a beehive with many other bees. There are three kinds of bees in a hive: the queen bee, worker bees, and drones. The queen bee lays eggs. The worker bees collect nectar from flowers and make honey. They also guard the hive. Drones do not work. Their only job is to help the queen bee. Bees are very important because they help plants grow by moving pollen from flower to flower. We get sweet honey and wax from bees.

- Where does a honeybee live?
- How many kinds of bees are there in a hive? Name them.
- The worker bee ___ from flowers and make ____.(complete the sentence)
- Find two adjectives from the passage.
