- Reservation:** 200 point roster for reservation to various categories shall be followed while determining the merit list for admission in each core subject:
- For the Degree:**
  - The candidate shall have to undergo the prescribed courses of study in a College affiliated to the H.P. University for a period not less than three academic years and not more than five academic years, should have passed the examination prescribed and fulfilled such conditions as have been prescribed therefore.
  - For the degree (BA / B.Sc. / B.Com.) the student will have to cumulate a minimum of 132 successful credit hours of course work over a minimum of three and a maximum of five years from the date of admission.
  - Provided that not more than three attempts will be allowed to pass a course.

**8. Annual System:**

An academic year comprising 180 working days. With six working days in a week. Considering that each teaching day has 5 teaching/working hours, a teaching week would have  $5 \times 6 = 30$  working / teaching hours available for each student.

**9. Credits:**

The term 'credit' refers to the weightage given to a course, usually in terms of the number of instructional hours per week assigned to it. This explains why usually 'credit' is taken to mean 'credit hours'. For the purpose of credit determination, instruction is divided into three components:-

- Lectures (L)** - Classroom lectures of one hour's duration
- Tutorials (T)** - Special, elaborate instructions on specific topics (from Lectures) of one hour duration.
- Practicals (P)** - Laboratory or field exercises in which the student has to do experiments or other practical work of two hours duration.

Each one of these components is considered as equal to one credit. One lecture (L) as well as one Tutorial (T) of one hour a week is considered as one credit, whereas one Practical (P) of two hours a week is considered as one credit. The total weightage given to a course in terms of credits will be equal to  $L + T + P$ , where  $L$  is the number of one hour Lectures per week,  $T$  is the number of one hour Tutorials per week, and  $P$  is the number of two hour Practical per week. This can be written in symbols as:-

$$C = L + T + P$$
